

MW851-ZETA WATER JET LOOM

HIGHER RPM

STRONGER BODY

HIGHER EFFICIENCY

HEAVIER WEIGHT

Product Description

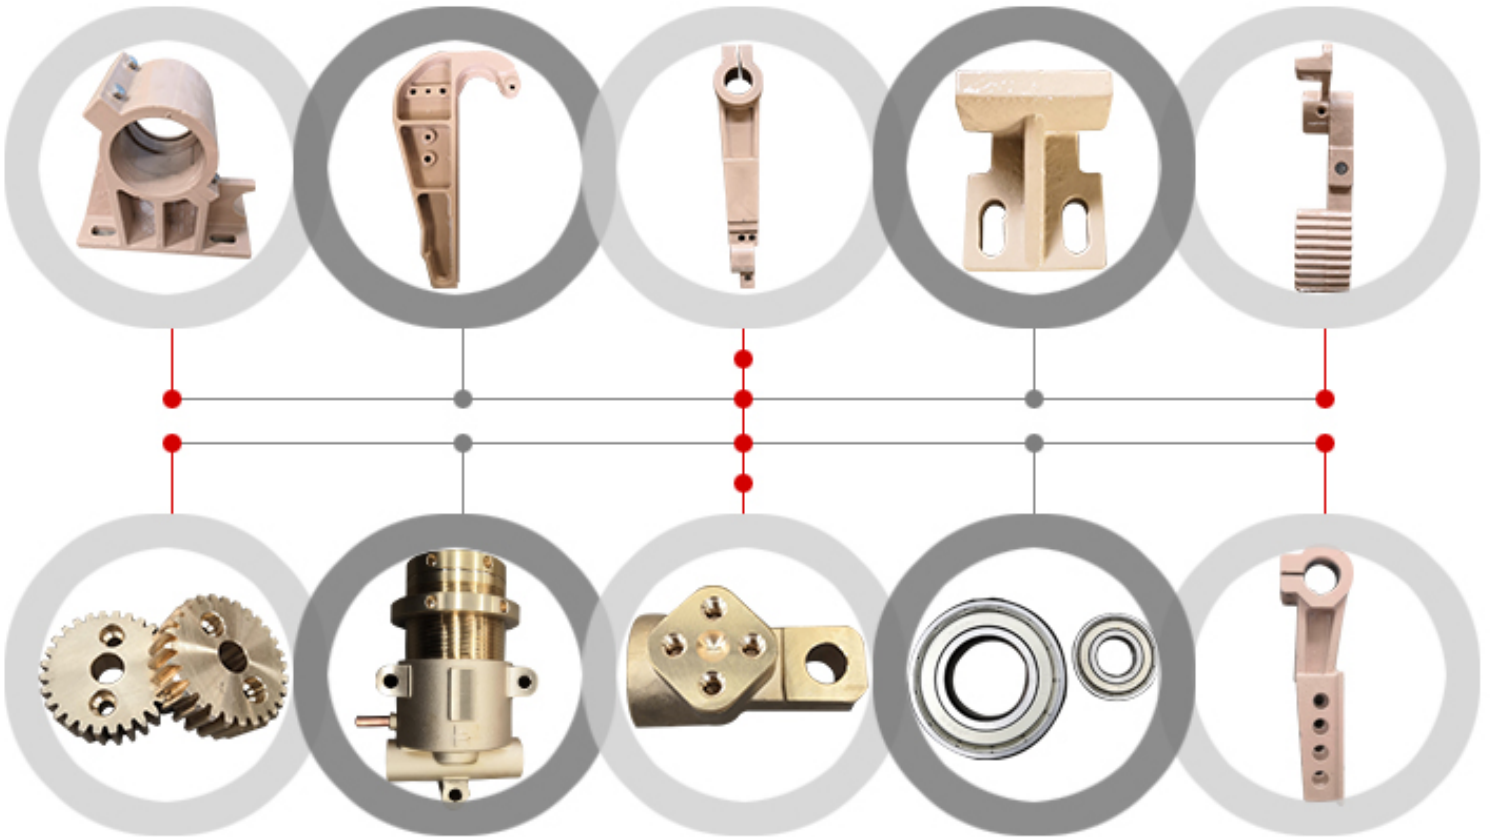

This is a new model which is professionally improved from model 813. After innovation, the machine is highly enhanced in terms of let-off, shedding, take-up, transmission and body stability. Therefore, it gains more excellent performance at high speed.

It is of a wider application scope now, especially good at weaving low and medium density fabrics. This new model can be equipped with single pump double nozzle and electronic feeder system, plain shedding, cam shedding and dobby shedding are for optional.

ITEM	MW851-ZETA WATER JET LOOM
Reed width	140, 150, 170, 190, 210, 230, 260, 280, 320, 340, 360cm
Middle wall	450kg, wall thickness 40mm
Speed	800-1200 RPM
Heddle Frames	Plain shedding 2~8 pieces, Cam shedding 4~12 pieces, Dobby shedding 16 pieces
Motor	2.2kw, 2.6kw, 2.8kw, 3.0kw, 3.5kw, 4.0kw, 4.5kw
Weft density	5~60 picks/cm

 MACHINE ACCESSORIES

ADVANTAGE

STRONGER BODY:

Machine wall weight: 450kg

HEAVIER WEIGHT:

Machine net weight: 1800kg(190cm width)

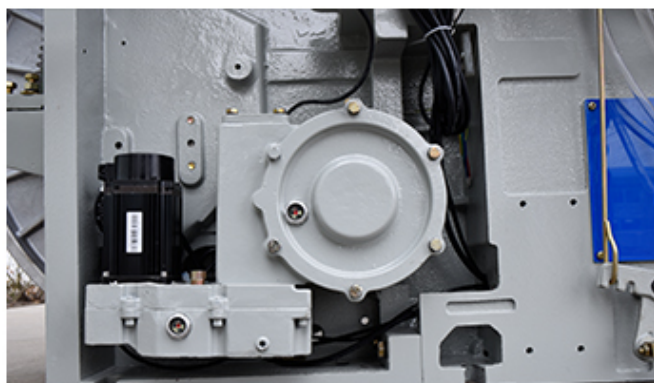

HIGHER RPM:

Running speed: ≥ 740 RPM (190cm cam shedding)

HIGHER EFFICIENCY:

Working efficiency: $\geq 95\%$

DETAILS SHOW

Qingdao Ming Source Machinery Technology Co., Ltd. was founded in 2002, which is specialized in the manufacture of textile machinery. With advanced CNC processing equipment and professional machinery production technology, our team can always offer research and development, production, sales and after sale service etc.. Our products are not only highly favored in China domestic market, also exported to India, Pakistan, South Korea, Turkey, Russia and other countries, where we get good international reputation.

There are mainly two series of our products: water jet loom, air jet loom.

- Water jet looms: MW851 water jet looms, MW408 heavy duty water jet loom, MW501 water jet loom for interweaving mesh, MW918L PP/PE leno weaving water jet loom, MW918P tarpaulin weaving water jet loom etc..

- Air jet looms: MA710 smart air jet loom, MA810 high speed air jet loom, MA708 medical gauze air jet loom, MA718 glass fiber air jet loom etc..

Our company focus on R & D and manufacturing high-grade intelligent textile machinery, adhering to the concept of "innovation changes the world, technology weaving the future", and constantly develop new products, new technology research and development efforts, we will make persistent efforts to customer needs and interests, and strive to develop, steady progress, and strive to get more satisfaction and recognition from domestic and abroad.
